## Awareness Program on Blood Donation

### Resource Person: B. Apparao

- *Slogan:*

- The slogan for World Blood Donor Day campaign is "Give blood, give plasma, share life, share often." It focuses on patients requiring life-long transfusion support and underlines the role every single person can play, by giving the valuable gift of blood or plasma.

- *Why Blood Donation:*

- Just 1 donation can save up to 3 lives. The average red blood cell transfusion is 3 pints (or 3 whole-blood donations). More than 1 million people every year are diagnosed with cancer for the first time. Many of them will need blood—sometimes daily—during chemotherapy.

- *Founder of Blood Donor Day:*

- Karl Landsteiner was the first one to examine the science of blood donation with animals and he managed to successfully transfuse blood between two dogs with no appreciable ill effects. But WHO decided to celebrate the birthday of Karl Landsteiner as World Blood Donor day. Landsteiner was Austrian American immunologist, pathologist.

- To know the scarcity of blood
- To ensure availability of safe and quality blood
