Awareness program on Disaster Management

- ***Background:***

- Disaster management is how we deal with the human, material, economic or environmental impacts of said disaster, it is the process of how we "prepare for, respond to and learn from the effects of major failures". Though often caused by nature, disasters can have human origins.

- ***Types of Disaster Management:***

- Mitigation
- Preparedness
- Response
- Recovery

- ***Importance:***

- Disaster management can help to enhance the ability of emergency responders to save lives. When appropriate infrastructure is set up and training is completed to improve disaster response, communities can survive the stress and distress caused by disasters.
- Providing the details of the affected people
- Action taken at the time of disaster
- Safety of natural resources
- Reduce disaster risk
