DEPARTMENT OF ZOOLOGY

VISION

To provide quality education in Zoology by developing scientific knowledge, critical thinking, research aptitude, and environmental consciousness among students, enabling them to understand the diversity of life and contribute responsibly to society and the conservation of biodiversity.

MISSION

1. To impart quality education in Zoology through innovative, student-centred, and experiential teaching-learning practices.
2. To develop a strong foundation in biological sciences and encourage students to understand the structure, functions, diversity, evolution, and behaviour of living organisms.
3. To promote scientific temper, critical thinking, problem-solving skills, and research aptitude among students.
4. To provide practical learning opportunities through laboratory work, field visits, projects, seminars, and other academic activities.
5. To create awareness about biodiversity conservation, environmental sustainability, wildlife protection, and ecological balance.
6. To encourage students to pursue higher education, research, competitive examinations, and career opportunities in life sciences and related fields.
7. To inculcate ethical values, social responsibility, and a commitment towards the sustainable development of society and the environment.
8. To foster collaboration with academic institutions, research organisations, and other stakeholders for the academic and professional development of students.
