Our Team

Library Advisory Committee:

College Library is run under the directions and guidance of the College Library Advisory Committee. An active, vibrant and dynamic library system depends on dedicated Library Advisory Committee members who have a vision to ensure that library resources are purchased to stimulate resource-based teaching and learning. A Library Advisory Committee is an essential component of effective library management and governance. It helps to ensure that the library is operating in accordance with its mission and priorities and that resources are allocated in a way that supports these goals. Overseeing the library's operation and management, the Library Advisory Committee reviews and recommends policies for the library, with particular attention to the collection budget and to the distribution of resources among academic divisions and units.

The Library Committee is an advisory body complementing the Librarian for smooth and effective functioning of the library. The Advisory committee suggestions are taken in to consideration in purchase, subscription of magazines Textbooks and Reference books etc.

Computerization:

The library books are Computerizing with e-Granthalaya 2.0 of National Informatics Centre, (NIC), New Delhi, Installed and using.

Journals & Magazines

Journals and magazines are the one of the primary sources of information for learning, instruction and research in any higher education Institution. Magazines provide current information on popular topics, while the Journals provide scholarly information, including research studies. As the Journals contain original research and typically focus on one particular experiment, scholarly journals are an important part of faculty research. Hence, the Library is fully committed to deliver the quality journals to user community. However, After facing the drastic effects of Covid-19 pandemic, Library has decided to opt for only online journals rather than the physical print copies. Library is constantly involved in the process of constant search and scrutiny in order to collect and deliver the best quality scholarly journals to the research community at their Desktop/Smartphone, thus enhancing Digital Library services. The following list is not exclusive. It will be constantly reviewed and updated.

Magazines

As the Magazines provide current information on popular topics, it is necessary for all students and staff to read as many magazines as possible to update their knowledge on current affairs. Hence, the Library subscribes to MAGZTER - a digital newsstand to provide users free access to 8000+ magazines from around the world in different languages. Further, the Library is in constant search for digital magazines to collect and deliver them through Digital Library

services. In addition, Library is also delivering physical copies of only those magazines that are helpful to prepare for Competitive Examinations. Currently, the Reading Room contains 26 magazines.
