

## OBJECTIVES :

The main objectives of the program are intended to:

1. Enable students to contribute to a household's nutrition and food security.
2. This course helps students to get opportunities for employment and livelihood sustainably.
3. To impart the knowledge to provide rapid and direct access to a diversity of foods that can be harvested, prepared, and eaten by family members daily or as a part of business

## OUTCOMES :

1. Students gain the knowledge of cultivating vegetables at home in a sustainable way.
2. Self-employment opportunities and entrepreneurship.
3. Students gain knowledge of gardening cost-effectively and sustainably.

## REPORT ON THE CERTIFICATE COURSE

As a part of academic activity, the Department of Botany has conducted a certificate course in sustainable home gardening from 08.07.2022 for the academic year 2021-2022. The important objective of the course is to improve basic knowledge on sustainable gardening among UG degree students. As per the instructions given by the principal during the minutes of the meeting, 15 members of the students are enrolled in the certificate course. The botany faculty member has engaged in classes for 30 hours and dealt the basic concepts of the subject. At the end of the course an external examination with multiple choice questions was conducted for the assessment of learners understanding levels of knowledge. The minimum qualifying marks for the award of certification is 40%. All the students completed the course successfully and got certificates during the academic year 2021 and 2022.
