## **A Brief report**

**on**

### **Webinar on Impact of COVID-19 on Indian Economy Challenges and Opportunities**

COVID-19 crisis has caused an unprecedented collapse in economic activities across the globe and Indian economy is not exceptional. According to International Monetary Fund (IMF), the global economy is expected to shrink by over 3 per cent in 2020-21, the steepest slowdown since the great depression of 1930, much worse than during the 2008-09 financial crisis. IMF has projected that the Indian economy to grow at 1.9% in 2020-21.

The pandemic causes a significant impact on individual lives, Industries, and businesses in the country. COVID-19 pandemic has had devastating effect on migrant workers and daily wage earners. They lost their livelihood due to lockdown and this has created issues including starvation, separation from family and no alternative forms of employment which results in lakhs of migrants have been forced to walk for days to reach their native places. COVID-19's impact on agriculture sector has far-reaching effects beyond food security. MSME sector that forms the backbone of the Indian economy have been the worst casualty of COVID-19 induced lockdown due to their size, scale of operation and limited financial and managerial resources. To combat the COVID19 crisis the Govt. of India announced Atmanirbhar Bharat Abhiyan, an economic stimulus package of Rs. 20 lakh crores with intended objectives of interim measures such as liquidity infusion and directs cash transfers for the poor and long-term reforms in growth critical sectors. The details about the package were announced by the Union Finance Minister Smt. Nirmala Sitharaman in 5 tranches. These tranches were announced by the finance minister via press conferences from May 13, 2020, to May 17, 2020. The package included Rs 8 lakh crore in liquidity measures announced by the RBI.

The government will also provide a 100% guarantee to Rs 3 lakh crore in small business loans. This may be helpful to revive the economic activities and create new opportunities for growth in sectors like agriculture, MSMEs, Power, Coal and Mining and service sectors. In this background, it is proposed to organize a webinar on "Role of Atmanirbhar Bharat Abhiyan in Indian Economy during post COVID-19 Scenario".

### Objective of the Webinar:

This webinar aims to bring together Academicians, Professionals, Research Scholar and students from SAS Government degree college. The highlight of the webinar is to give opportunity researchers and academicians and students to fulfil the following objectives.

1. Impact of COVID-19 on Indian Economy as a whole
2. Impact of Atmanirbhar Bharat Abhiyan on growth critical sectors
3. Challenges associated with Atmanirbhar Bharat Abhiyan
4. Post COVID-19: Role of India in Global Economy

### Post-Covid – Indian Economic Scenario

- World is battling with Modern Horrors like Corona Pandemic, which brought entire world to a stand.
- A challenging Task for Global economy and a testing time for India's ability to cope with the crisis.
- Human Life Comes first, Money is secondary.
- If no advance action is taken timely, it may mean an economic collapse.
- The post-pandemic world will wake up to a new trading culture. pandemic has battered all sectors of the economy, with the MSMEs among the worst-hit.

### The Crisis & Opportunities

- Economists predict a severe Global Economic Recession in which both Advanced economies as well as Emerging economies will show contraction.
- This is 4th Recession since Independence, and first after the economic reforms taken up in 1991.
- Earlier recessions took place in 1958, 1966 and 1986 and for each time it was due to monsoon failure that hit agriculture, then it was sizable part of the economy.
